RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

By Official Action mailed May 22, 2006 restriction to one of the following inventions is required under 35 USC 121:

- I. Claims 1-14, drawn to a beam splitter apparatus, classified in class 359, subclass 618.
- II. Claims 15-21, drawn to a method of controlling a beam, classified in class 359, subclass 636.

In response, Applicants hereby elect, with traverse, claims 15-21 for examination in this case.

The restriction is traversed for the reason that the method can only be practiced by the claimed apparatus and the claimed apparatus can only be used to practice the claimed method. As a result, the inventions are not separate and distinct. The Office Action implies that the method can be practiced with an apparatus other than that of the claimed apparatus and vice versa. However, no examples are cited in the Office Action to support such a bold statement. Consequently, early examination on the merits is courteously solicited.
